FACT SHEET

LOCATION

Severin Safari Camp is hidden in the remote Kitani Wildlife area of Tsavo West National Park overlooking the Mt. Kilimanjaro. The eco friendly luxury camp offers a unique combination of adventure, wellness and relaxation for the sophisticated traveler who loves romantic pampering and unique wildlife experiences.

The remote location of the camp and that it is unfenced allows wildlife to cross the floodlit waterholes. Masai warriors guard the camp ground 24 hours and accompany guests after darkness to and from the tents.

Tsavo West and East National Park is recognized as the third largest national park in the world and rich with great herds of elephants, giraffes, zebras and impalas passing through the area in search for patches of grass. With over 22.000 square kilometers there is a lot to discover during the game drives.

We recommend guests to visit the Mzima Springs, Roaring Rocks, Rhino Sanctuary, Poacher's Lookout, Taita and Chyulu Hills, Chaimu Crater and the various lava caves as the Laviathan.

The Khama Rhino Sanctuary Trust is a community based wildlife project, established in 1992 to assist in saving the vanishing rhino, and to restore an area formerly teeming with wildlife to its previous natural state.
